

# General Music Workshops

SOUND WAVE RE-ARRANGING-Hands On  
45min.-1 hr.

\* optimum size=15-20

workshops for all sized groups are provided, but due to time limitations not everyone will be able to participate.

- I. Play original piece of music with students seated up close
- II. Explain Sound Waves & Electric Violin Pick Ups
- III. Demo Sound Effects & Looping of Electric Violin, Voice, & Hand Drum Pad
- IV. Students will try the electric violin, percussion, hand drum pad, & microphones with sound effects & looping for both the electric violin & voice.
  - A. Using microphones, students' voices are "looped" or recorded
  - B. These short recordings are played back with both the original & its effected sound.
  - C. Types of recordings
    - 1. Students collectively sing a few bars of a song they know, & or make up their own words or poems, or raps
    - 2. Students create their own sounds using finger snaps, hand claps, whistles, human beat box, etc.

\*This activity fosters creative thinking & stimulates the imagination regardless of musical ability or whether or not they play an instrument.
